

## Map information

David, KD4CLJ

### Symbols:

In mapping stations, I only use the location of the town listed in the "Phonebook" posted on the Hamshack Hotline website. If you particularly desire it, send me an email with your Extension(s) and Latitude/Longitude and I will move your icon there.

HHUS Individual stations are indicated by a red telephone handset,

HHX Individual stations are indicated by a yellow telephone handset,

"EOC"s are indicated by a red circle.

"CLUB"s are indicated by a yellow house.

HHEU (Europe) stations are indicated by a purple flower. (For all the royalty over there!)

HHAP (Asia-Pacific) re indicated by the Torii, as there are similar gates both in Boston and Tokyo.

The latest Network, HHUX, are signified by a green Wifi symbols.

I started to plot RF-Links, since it might be useful if you were mobile to be able to come in on the Rf side. And those have a brown tower

The numbers in the title line of the map indicate the revision of the map, in the form YYMMDD-HHMM-LPR where LPR is the Last Phonebook Record number.
